Informative Brochure

**Welcome to our
International Collaboration Team**

**Tech Companies
Universities
City Leaders
Local Authorities
Senior Consultants**

Welcome

Thank you for stopping by to learn about us.

This is a brief overview of our International Collaboration Team that I have set up to offer more integrated solutions. The purpose of powerful collaboration is integrate Tech companies, Universities, City Leaders and Municipalities to create:

- Faster solutions
- Share knowledge and information
- Work together commercially

As such, within our team we have a wonderful, rich, chemistry made up of:

City leaders/Mayors, 110 Tech companies as well as big names such as Cisco, IBM, Nokia, Microsoft, Google, Apple etc. Universities and Municipalities - all helping us solve city challenges, environmental issues, Social innovation and tech solutions.

I hope you find this document interesting and you may consider joining us.

Thank you

**CEO and Founder -
John David**

Briefly about Amnick

We are a collaboration of ex-local government Directors, Universities, private and 3rd sector senior management across UK and Europe.

- We are working in partnership with Daily Telegraph, Emerging Europe, EDU World Holding, Universities, Research Centres, public and private sector organisations.
 - We create partnerships that lead to savings, efficiencies and Transformation.
 - We put People central to all public and digital services.
 - We make bad things good and good things better.
-
- 30 senior local gov experience (Digital and Business transformation).
 - Chair for Daily Telegraph (UK National newspaper) Technology and Innovation Task Force.
 - Chair for Industrial IoT Central and South Europe
 - Member of Chinese Scientific Advisory Board.
 - Areas of managing Departments include: Education, Health, Environment, Transportation , Adult and Children, Housing.

What we do?

As a collaboration, we do 2 things:

A) Bring all of our diverse resources together every four months on web meeting. This is to discuss and resolve city challenges collectively - these include;

- Digital inclusion
- Commercialisation
- Connected Cities
- Financial and Social challenges.

B) Commercialisation - Here we meet every two months online. Currently members in this workstream are working together to create their commercial offer to industry.

From this we are creating a commercial brochure of our offer using our team from;

- City leaders/mayors
- Our 110 Tech companies
- Our university partners
- Our municipality partners
- Our Business and Industry colleagues
- Corporate videos
- Promotion at large scale events

<https://www.iottechexpo.com/northamerica/track/application-iot-consumer/>

- Our aim is to help create commercial revenue streams for individuals and organisations using our economy of scale and wide outreach.

Our resources

We buy and sell your solutions and products

We are always interested in learning of the best solutions and products. We are working across the world with a range of partners.

Through our outlets we can promote and sell your services and solutions in collaboration. And also feature these via our events and Smart Cities magazine.

Our combined solutions

Environment - Sustainability, land, air, sea.

Technologies - Inclusion, business architecture, future proofing (AI, Blockchain, Cloud, Edge computing, Securities).

City Challenges - Digital Inclusion/Connected Cities/ Commercialisation.

Energy Solutions

Smart Cities - Research, Funding, Programme management.

Municipalities - Business and Digital Transformation across Adult and Children services, Health, Transportation, Education, Housing.

Amnick Digital University

A social online university offering new mix of learning/digital skills and hands on work experience to every person.

No age limits, no qualifications needed. Access learning and gain work experience either online or in our partners offices worldwide.

Tech skills - AI , IoT, Robotics, Cyber, 5G, Digital, Blockchain.

Human - Holistic human design, building better societies.

Spiritual - Business, Society, Individual.

Traditional - Arts, Science, Languages, Mathematics, Humanities.

You can gain training and certificates in over 100,000 courses (50% of which are free or low cost). And gain a valuable industry certified degree for 1/2 price of academic degree.

Your time commitment

You choose. You can be as involved as you want to be in either of the two groups:

- **International Collaboration Team** - meetings every 4 months on Thursday evening at 8pm-10pm UK time.

Or

- Join in the **Commercial Team** and join meetings every 3 months (at your convenience).
- With either choice/programme you attend and input what you want and when you want...it's your choice.

Your Benefits

- Personal Development.
- Speaking opps around the world at our partners events.
- Free sponsored travel abroad (occasionally).
- Potential Income Stream.
- Networking.
- Creative opportunities.

Our Achievements

- Successful delivery and support of a range of projects and programmes to the value of £5bn (including Highways, Transportation, Technology and IT, People, Processes and Procurement).
- Creation of 971 new jobs.
- Setting up of Think Tank with Government bodies to support economic development.
- Delivery and support of a range of Corporate Business Transformation programmes.
- Creation of Share & Support Campaign leading to Government backing and 30 out of 33 London Boroughs taking part.
