GLOBAL ENGINEERING LOGISTICS AND TRAINING SOLUTIONS

OVERVIEW:

The confusion created by the Brexit process and the Covid-19 Pandemic has led to hoarding and shortages of materials and products in some areas of industry.

In the UK, the building trade is experiencing shortages in materials and manpower, partly due to those uncertainties.

Depending on Brexit outcomes, the possibility of substantial delays of UK destined goods at EU ports is a threat to many businesses.

International trade relations are fragile, tariffs are causing supply and price uncertainties and there is now customer push back against materials supplied from some countries.

Those issues present opportunities for forward thinking companies to solve the problems that others are creating.

GLOBAL are addressing those issues – now.

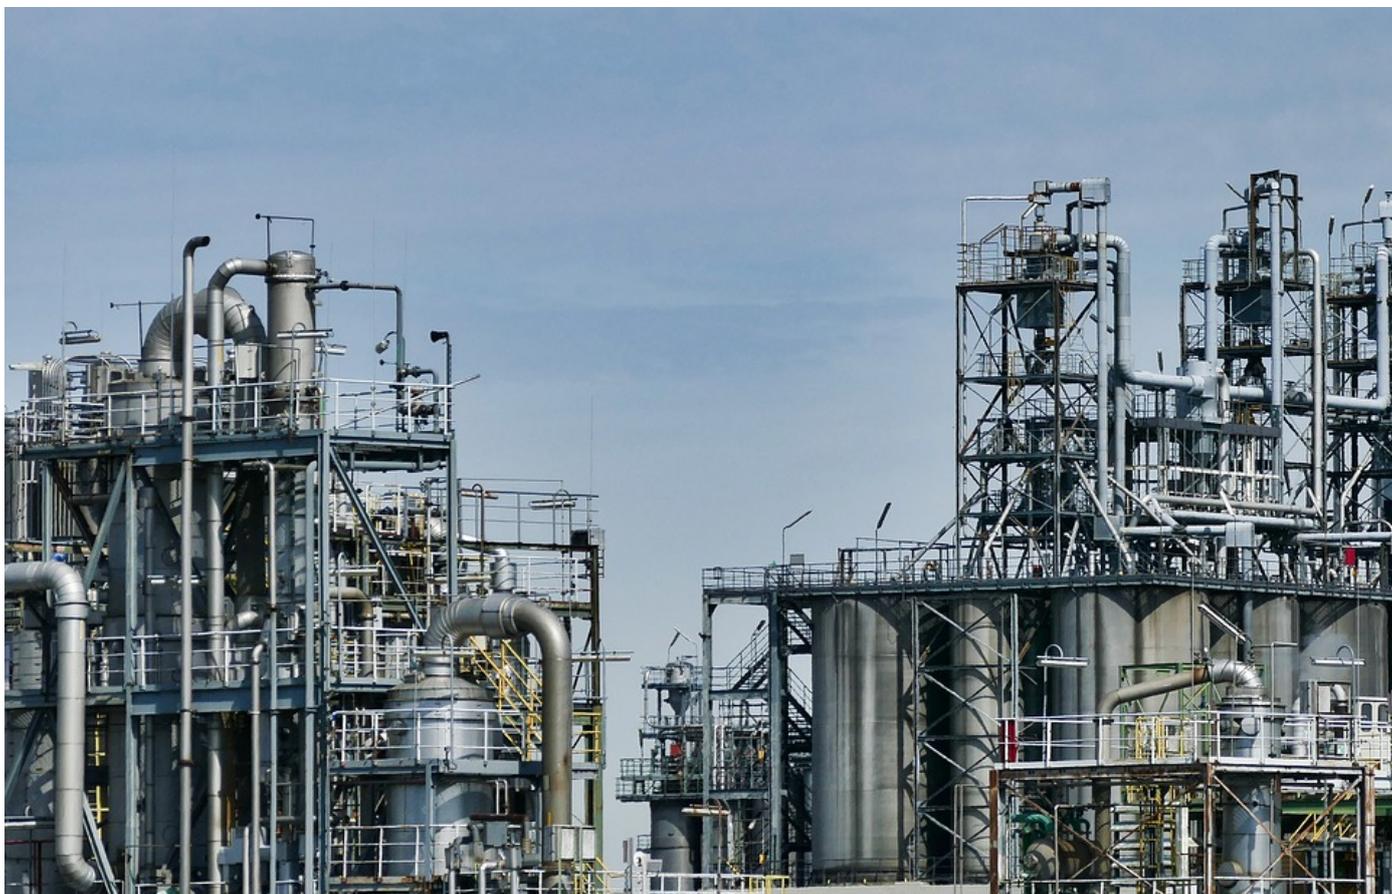

ABOUT US:

- Global Engineering, Logistics and Training Solutions are a LAUREN IPSUM Registered Company
- We have built a wide ranging network of influence and support. It is this strong network which sets Global apart as a company able to get a job done regardless of the sphere we are working in.
- We specialise in Engineering Supply and Services, Procurement Services, Modular Construction and Building Supplies and E-Learning courses suitable for a wide range of trades and professions.

E-Learning training across a wide range of subjects: professional, technical and managerial.

“QUALITY DRIVEN”

Operational standards: GLOBAL commits to providing a high quality service and has clear policies on client confidentiality, a commitment to diversity and an established code of practice and ethics.

Contract capability: GLOBAL Approved Contractors and Suppliers have the personnel, expertise and resources to deliver a high quality service on any work they contract for.

Delivery process: GLOBAL Approved Consultants and Contractors plan the delivery process of each piece of work, with effective procedures and systems in place to ensure a positive outcome.

Delivery and output evaluation: Global and their Consultants actively seek feedback on both the process and outcomes of their work.

Continuous development: Global and their Consultants know their strengths, are self critiquing, and continually seek to develop themselves and their services, taking into account the views of users and clients.

Full Range of Products & Services to suit your Needs and Requirements Whether:

BIG:

or **SMALL:**

LIVING SOLUTIONS:

Supporting the local and global logistical needs of our clients - no matter where.

Introducing:

Turnkey Solutions

QUESTION:

- Would you prefer to design and implement a first class facility cost effectively?
- Would you like to avoid endless, tedious meetings and verbose, hard to read reports?
- Would you like to avoid “middle men” and constant fee demanding facilitators?
- Do you care about the safety and security of staff and contractors building your facility?
- Do you demand value for money and work delivered within time and budget constraints, knowing that you are getting value for your investment?
- Would you like to secure your sensitive government facilities, essential infrastructure and border areas quickly and comprehensively using your own specially trained people?

If you answer YES to any of those questions then we have a solution for you:

Providing a High Return on Investment

- Our service is 100% quality driven at all times.
- Cost effective systems and training benefits you and the client.
- Cuts out tedious administration and drawn out meetings and planning processes.
- Our procurement team will source the best rates on all aspects of the project, from the smallest to largest items.
- Transparent and responsible procurement operates at all times.
- Results can be measured by your own systems and activity reporting.
- “After delivery” results can be measured by client’s own systems and activity reporting.
- “Critical to Quality” processes ensure smooth efficient delivery first time, every time.
- Turnkey projects are politically expedient: Legacy retained for client future use. Governments and Councils are seen to be acting responsibly for the benefit of the people. LAUREN IPSUM.

Our Turnkey Solutions Service and related programmes can satisfy all your building, training, security, logistics and procurement requirements efficiently and in complete confidence.

Border & Access Security

Security is critical at points of entry along open and remote borders, air, rail and sea ports, commercial and public facilities.

Educational Services & Supplies

Education is a must if a nation aspires to achieve growth and development and more importantly sustain it.

The importance of education cannot be neglected by any nation.

In today's world, the role of education has become even more vital.

It is an absolute necessity for economic and social development of any nation.

In today's harsh, economic times we can help provide your educational needs and supplies.

Hospital, Clinical & Pharmaceutical Services

Our expertise can help provide healthcare services on the road, at home, in the office, at remote industrial sites as well as conventional emergency evacuation, ambulance and air ambulance PLUS tele-medicine services.

Additionally, facility management services and equipment including catering, laundry and cleaning to hospitals of all sizes can be provided.

Consumable items can be sourced and delivered “just in time”.

Infrastructure Security & Training

There are sixteen key areas deemed critical to a country's infrastructure that must be secure and able to withstand and rapidly recover from all hazards. All are vital to public confidence and the Nation's safety, prosperity, and well-being.

- Infrastructure security training.
- Soft target assessments.
- Security audits.
